PROFESSIONAL SUMMARY

Computer Science undergraduate (CGPA: 9.55/10) with experience in full-stack development using MERN, Django, NLP, REST APIs, and database management. Solved 250+ DSA problems across LeetCode and CodeChef and is actively pursuing software development internship opportunities.

EDUCATION

CVR College of Engineering, Hyderabad <i>B.Tech, Computer Science and Engineering</i>	Sep 2024 – May 2028 <i>CGPA: 9.55/10</i>
Narayana Junior College, Hyderabad <i>Intermediate (Telangana State Board of Intermediate Education)</i>	May 2022 – June 2024 <i>Score: 987/1000</i>
Sri Chaitanya Techno School, Hyderabad <i>Secondary School Certificate (SSC)</i>	May 2022 <i>CGPA: 10.0/10.0</i>

Personal Projects

- MindCare - Digital Mental Health Support System** / *Django, JavaScript, SQLite* 2025
- Built a full-stack mental health support platform using Django and NLP-based sentiment analysis to understand user emotions and provide personalized assistance. Designed secure backend systems including user authentication and database models, ensuring reliable and efficient data handling.
- CivicVoice - Civic Issue Reporting & Resolution** / *React.js, Node.js, Express.js, MongoDB* 2026
- Designed and built CivicVoice, a MERN-based civic grievance management platform that enables citizens to report and track public issues through a centralized system. Integrated secure authentication, complaint management workflows, and a responsive interface for efficient issue reporting and status tracking.
- Forever - E-Commerce Website** / *React.js, Node.js, Express.js, MongoDB* 2025
- Developed a MERN-based e-commerce platform with secure authentication, role-based access control, and end-to-end product, cart, and order management. Built scalable backend APIs and intuitive frontend workflows to enhance usability and streamline the shopping experience.

Technical Skills

Languages: Java, Python, C
Frontend: HTML, CSS, JavaScript, React
Backend: Node.js, Express.js, Django
Databases: SQL, MongoDB
Tools: Git, GitHub, Ubuntu, Power BI, VS Code
Concepts: Data Structures, Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, REST APIs

Achievements and Certifications

- Smart India Hackathon (SIH):** Developed the React.js frontend for a MERN-based environmental education platform aimed at encouraging sustainable habits and climate awareness among students; the project was shortlisted for the next round.
- HackVibe (24-hour Hackathon):** Built a student productivity platform enabling study tracking, timetable management, and progress monitoring; delivered a working prototype within 24 hours.
- DSA Proficiency:** Solved 250+ problems across LeetCode and CodeChef, strengthening problem-solving skills and deepening proficiency.

Training and Experience

- Infosys Springboard Virtual Internship** September 2025 – November 2025
Virtual Intern – QuizForge AI
- Developed an AI-powered quiz generation platform using **Django, OpenAI API, JavaScript, and SQLite**.
 - Integrated the **OpenAI API** to generate customized multiple-choice quizzes based on user-selected topics and difficulty levels.
 - Implemented secure authentication, automated quiz evaluation, quiz history, leaderboards, and personalized dashboards.
